Fast Shipping on Select Bell & Gossett e-Series Pumps

Series e-60

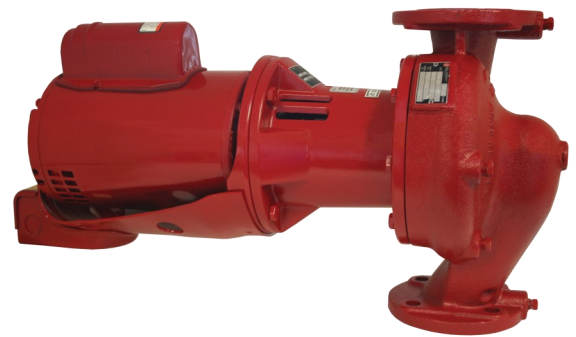

The Series e-60 is a three-piece in-line centrifugal pump designed for heating and cooling, potable water, and other fluid transfer applications.

Series e-60 features:

- Upgraded unitized mechanical seal
- Dimensional interchangeability with legacy Series 60
- Series e-60 ECM for simple variable speed control
- 3 year workmanship warranty (1 year for ECM)

Replaces Series:

Armstrong™ 1050 & 1060, Taco® 1600, Grundfos™ UPS

Series e-90

The new robust EPR/carbon/silicon carbide mechanical seal lowers maintenance and increases the life of the pump. This pump is rated for 250°F and 175 PSI and is perfect for chilled water loops or heating water loops in commercial hydronic systems.

Series e-90 features:

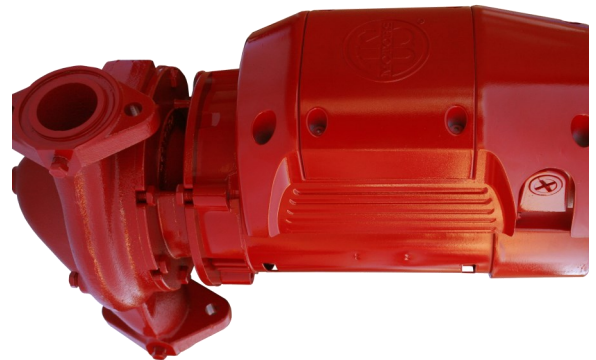

- Close-coupled, horizontal or vertical installation
- Space saving back-pull-out design, low maintenance, long life, quick shipment
- Wide range of applications; hydronic heating and cooling, pressure-boosting, refrigeration and heat exchanger circulation

Motors:

- 3 phase 1-3 HP Premium Efficiency TEFC
- 1 Phase available from 1/3 – 2HP ODP

Replaces Series:

Armstrong™ 4360, Taco® 1900, Grundfos™ TP
