

Available up to 15HP**Fast Shipping on Select Bell & Gossett e-Series Pumps****Series e-60**

- Small Flex Coupled In-Line Centrifugal Pump
- Class-leading hydraulic efficiency \ Space saving in-line mounting
- Permanently lubricated pump and motor bearings—no regreasing!
- Dimensionally interchangeable with legacy Series 60

Replaces series: Armstrong™ 1050 & 1060, Taco® 1600, Grundfos™ UPS**Series e-90**

- Small Close Coupled In-Line Centrifugal Pump
- Long life \ Increased hydraulic efficiency \ Energy Savings
- Ability to mount horizontally and vertically
- Excellent for boiler recirculation applications

Replaces series: Armstrong™ 4360, Taco® 1900, Grundfos™ TP**Series e-80**

- Close Coupled In-Line Centrifugal Pump
- Higher hydraulic and energy efficiency
- Maximized hydraulic coverage
- Available Integrated Technologic drives for sensed and sensorless applications

Replaces series: Armstrong™ 4380, Taco® KV, Grundfos™ VL**Series e-1510**

- Base Mounted End Suction Pump
- Highest overall efficiency in the end-suction market
- True Back Pullout
- Solid-Foot Mounted Volute

Series e-1531

- Close Coupled End Suction Pump
- “Best in Class” hydraulic performance
- Best choice for Lowest Life Cycle Cost
- Heavy duty cast iron volute construction for 175 PSI working pressure

Hassle-Free Ordering With Frank P. Langley Co., Inc.

1: Gather your job specifications and product info from your motor ID label and pump ID plate.
